

Snow Plow

**11' SNOW PLOW
&
8' PATROL WING**

Features

Be ready for SNOW & ICE with a TIGER SNOW PLOW and PATROL WING

Attach the TIGER SNOW PLOW when your mowing season is done to an existing approved Tiger Series mower mount system. The 11' moldboard front plow features a front blade equipped with plasma cut steel ribs and six tension trip springs.

- 30" Blade Height constructed from 10 mm steel
- 3" x 4" Tubular Steel Push Beam
- Dual Cylinders for Angling
- Single Lift Cylinder
- AASHTO punched 1/2" thick cutting edges

Add a 8' PATROL WING for additional plowing width. The Patrol Wing features a full moldboard trip with high-impact, rubber shock absorber that attaches to the mower mounting system and the tractor Category II 3 point hitch system.

- Moldboard of 10ga. steel
- 6 - 3/8" thick plasma cut steel ribs
- Single telescoping pushbar with spring cushion and sheer pin
- Inboard and outboard adjustment controlled hydraulically
- AASHTO punched 1/2" thick cutting edges.

For additional hydraulic outlets ask about the Tiger valve multiplier kits, converts one set of tractor SCV's into 2-3-4 dual outlets. For additional features and specifications, please contact your TIGER Dealer.
